

Production Stop of High Voltage Current Transformers

We would like to inform that the production of high voltage current transformers will stop as below.

1. Types

Model	Rated burden (VA)	Rated primary current (A)	Alternative model
CD-40K	40	5~750	CD-25KB (For general meters)
			CD-25NB (For relay)
CD-40NA	40	5~500	CD-25NB
CD-40ENA	40	5~400	CD-25ENB
CD-10ANA	10	20~200	CD-10ANB
CD-25ANA	25	50~200	CD-25ANB
CD-40ANA	40	20~200	
CD-10CNA	10	20~200	CD-10CNB
CD-25CNA	25	60~200	CD-25CNB
CD-40CNA	40	20~200	
CD-15BB	15	5~400	CD-15CB

Note. CD-25ANA (Rated primary current of 20 to 40A) and CD-25CNA (Rated primary current of 20 to 50 A) will be continuously produced

2. Reason of Production Stop

Due to the launch of new models that are listed in above table as the alternative model

3. Time of production discontinuation

Final order acceptance date: December 28th, 2017

Final order shipment date: March 30th, 2018
